Career Objective

I aim to contribute to **production-ready software projects** by applying clean coding practices, strong problem-solving skills, and modern web technologies, while growing into a dependable developer within a collaborative team.

Technical Skills

Languages: JavaScript, TypeScript
Frontend: HTML5, CSS3, Tailwind CSS, React.js
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Postman, VS Code
Concepts: REST APIs, Component-Based Architecture, Responsive Design

Project-Based Experience

Frontend & Full-Stack Development | Academic & Personal Projects
• Developed frontend interfaces using React.js, TypeScript, and TailwindCSS across multiple projects.
• Implemented REST APIs and backend services using Node.js, Express.js, and MongoDB.
• Applied Git-based version control, modular architecture, and reusable components in real-world use cases.
• Improved debugging, problem-solving, and code optimization skills through continuous project development.

Projects

[Link] CSS Learning Playground

Tech Stack: React.js, TypeScript, TailwindCSS, Radix UI, Wouter, Express.js, WebSockets

- **Developed** an interactive CSS learning platform using **React, TypeScript, and TailwindCSS** to visualize **Flexbox, Grid, Positioning, and Z-Index** concepts in real time.
- **Implemented** modular UI components and live state updates to demonstrate CSS behavior dynamically.
- **Integrated** an **Express.js backend with WebSocket support** for real-time interactions and scalable module handling.

[Link] 1Shift Down – Used Car Marketplace & Consultancy Platform

Tech Stack: React.js, TypeScript, TailwindCSS, Node.js, Express.js, MongoDB, JWT

- **Designed and developed** a full-stack used car marketplace using **React, Node.js, Express, and MongoDB**.
- **Implemented REST APIs and JWT-based authentication** to support secure multi-role access (buyers, sellers, dealers).
- **Built** dynamic filters, dashboards, and listing workflows to improve search accuracy and user decision-making

Education

B.E. (Computer Engineering) – Chhatrapati Shivaji Maharaj Institute of Technology, Mumbai University
HSC (Class XII) – Terna Vidyalaya & Jr College
SSC (Class X) – Smt. Radhikabai Meghe Vidyalaya
